

# Save Your Pop Tabs

***Cynan***

***Lugus***

***The Bradley brothers*** - Cynan, 11 and Lugus, 7 are in grades 5 and 3 respectively in Goderich. They both have Spinal Muscular Atrophy. This condition has them requiring new wheelchairs.

Cynan is interested in everything dinosaurs, walks and water activities. Lugus is a more adventurous boy and he likes dragons. They both enjoy books, games and lots of outdoor experiences.

Having larger chairs will enable them to interact on a more active level with their other four siblings.

***So please save your pop tabs to help the boys get their larger wheelchairs.***
